Subject: Microsoft Settlement

Dear Judge,

I am writing because I heard about the Proposed Final Judgment (PFJ), and I do not believe it should go through. Microsoft has infringed on antitrust laws, and allowing and even encouraging this kind of monopoly to occur is not good for the consumers - the American people. Imposing one standard on companies and on home users would not have positive results. Microsoft has already done enough damage to competition - please don't let it do anymore.

Sincerely,

Valerie Sun
